and Paper Handling
Technology”

Six Monthly HSE Checks and Servicing for Guillotines

There are 3 Levels of Service for you to choose from:-

LEVEL 1

Full Inspection of all Safety Systems; Clutch/Brake, FFM and over run systems, Optical and fixed Safety Guards, Electrical condition (switches and wiring), Check Condition of all major mechanical components for possible failure. Lubrication, grease, Hydraulic and Gearbox oils, Square and measurement checks, plus rectification of minor faults where possible.

LEVEL 2

Full Inspection of all Safety Systems; Clutch/Brake, FFM and over run systems, Optical and fixed Safety Guards, Electrical condition (switches and wiring), Check Condition of all major mechanical components for possible failure, Grease/Oil machine, plus Square and measurement checks

LEVEL 3

Full Inspection of all Safety Systems; Clutch Brake, FFM and over run systems, Optical and fixed Safety Guards, Electrical condition (switches and wiring), Check Condition of all major mechanical components for possible failure.

Guillotine sizes below 720mm will be charged at a standard cost of £180 plus vat this cost is for a full service and certification for the electro/hydraulic type guillotines.

Please call for a quotation on each level of service you require, prices are discounted if we service more than one machine on the same site.

We can also carry out safety checks on all makes of cutting and creasing platens.
